Cordless Lamp Collection 2022

NEOZ

Created by Lighting Designers

Our range of award-winning NEOZ Cordless Lamps are rechargeable, portable and dimmable, designed with the specific requirements of hotels and restaurants in mind.

We have incorporated over 30 years of experience into the design of every NEOZ Cordless Lamp. What distinguishes our lamps is the impeccable craftsmanship, use of appropriate material, and exceptional quality of light. Our lamps illuminate skin tones, food colours and textures in the best light – critical in the hospitality environment.

NEOZ Cordless Lamps are hand-assembled in Sydney, using only the highest quality components with up to five years warranty to guarantee performance year after year.

CREATED BY LIGHTING DESIGNERS

Every NEOZ lamp was carefully conceived by design professionals who specialise in lighting. This is a critical distinction, because it means our lamps are built for function, elegance and longevity. For lighting quality and serviceability.

SUSTAINABLE DESIGNS

Every component has been designed to be serviceable and replaceable because we know mishaps can happen. We're still servicing lamps from nearly 20 years ago.

EXCEPTIONAL LIGHT QUALITY

The NEOZ LED array provides a beautiful warm white light with **95+ Colour Rendering Index**. Critical to illuminating skin tones and colours accurately.

NO ADDITIONAL LIGHT REQUIRED

Up to 20x brighter than a tea candle, these are not table markers. Provides enough illumination to read menus by. Select from 3 dimming levels for the perfect light ambience.

LASTING POWER

Powered by Japanese-made Panasonic lithium-ion battery cells, providing over **300 hours** of light time on a single charge. Select from a range of battery power outputs to suit all users.

EASY CHARGING OPTIONS

Choose from a range of recharging solutions from a single base station to a recharging station for 48 lamps. Simply dock and charge the lamp.

NO HASSLE 5 YEAR WARRANTY

Shop with confidence thanks to our dedicated customer service and after-sales support. All NEOZ Cordless Lamps are covered by our industry-leading five year warranty.

INTERNATIONAL DELIVERY & APPROVALS

With clients from over 100 countries worldwide, our experienced team will supply and deliver your order almost anywhere in the world.

A' DESIGN AWARD & COMPETITION 2021

With over 57,000 entries since its inception in 2010, the Milan-based A' Design Award & Competition is one of the most diverse international design awards. The 'Apex' was granted the Golden A' Design Award in Lighting Products and Lighting Projects Design Category by the International Design Academy.

INTERNATIONAL DESIGN AWARD GOLD 2013

International Design Awards was created by designers, thinkers and entrepreneurs in 2007 as a response to the lack of recognition and celebration for smart and sustainable multidisciplinary design. The 'Cooee' was awarded 1st Prize in the Outdoor Lighting category and 2nd Prize in the Urban Sustainable Design category.

GOOD DESIGN AWARD 2017

Founded in 1950, the GOOD DESIGN remains the oldest, prestigious, and most recognized program for design excellence. Each year, The Chicago Athenaeum presents the GOOD DESIGN AWARD for the most innovative and cutting-edge designs produced around the world. The 'Tall Poppy' was a winner in the lighting category.

reddot design award

RED DOT DESIGN AWARD: PRODUCT DESIGN 2008

Presented by the Design Zentrum Nordrhein Westfalen in Essen, Germany since 1954. With over 15,000 submissions from 70 countries each year, the Red Dot is one of the most sought-after quality marks for excellent design internationally.

DARC AWARDS 2017 2ND PLACE

Darc awards/decorative is the only peer-to-peer international awards that celebrate and focus on decorative lighting within interior design and product designs. Over 200 entries from 30 countries were counted to determine the winners. The 'Tall Poppy' was awarded second place in the Decorative Table Standing Fixture category.

GOOD DESIGN AUSTRALIA 1998/2001/2004/2006

Conceived in 1958, the Good Design Awards and its forbearer is Australia's only national design awards for industrial design. The award proudly promotes the very best in design, innovation, and creativity at a national and international level.

MAGILL: BIRTH OF THE CORDLESS LAMP

It all started back in 1995, we were working on the lighting design for Penfold Wine's Magill Estate restaurant in the Adelaide hills with Sydney architects Allen Jack+Cottier.

A major challenge with restaurant lighting is the need to move tables around and still illuminate them appropriately; we were tasked with designing an electric lamp with no cord to solve this problem.

As there were no off-the-shelf battery systems, we designed our own exactly to our requirements. The end result was the Magill cordless table lamp.

25 years on, Magill continues to inspire and amaze – a reflection of it's elegance and longevity.

MAGILL

First released in 1995, this is the original NEOZ Cordless Lamp designed for the Penfolds Magill Estate Winery. Brush body with part frosted acrylic providing direct downlight and soft ambient side light.

COLLINS / LITTLE COLLINS

The Little Collins comes with opal polymer diffuser and a brushed stainless steel top. The Collins has an additional stainless steel base for increased surface illumination.

APEX - REDEFINING A CLASSIC

NEOZ is one of the pioneers in cordless lighting with the launch of the Magill Cordless Table Lamp in 1995.

To celebrate its 25th anniversary, our team designed the Apex, a high-quality and sustainable lamp that pays tribute to the original Magill. We kept its pure geometric quality and created a compact and exceptionally robust product that is tactile to handle, is simple to recharge, and provides a useful glare-free downlight for tablescape.

The Apex is precision-milled from solid brass or aluminium alloy and mechanically joined via a clear acrylic machined tube to an internal injection-moulded form. The lamp is fitted with a custom-made slim-profile disc LED to provide dimmable 2600K, 94+ CRI, 100+ lumens illumination.

APEX

The Apex is the spiritual and evolutionary successor to the 'Magill', our very first cordless lamp released 25 years ago.

The lamp provides an efficient and glare-free lighting, delivering 100+ lumens of downlight and a soft glow on the inner diffuser cone, providing a beautiful warm white illumination.

TRUSTED BY CHEFS & RESTAURATEURS

For over 20 years, NEOZ Cordless Lamps have been specified for the most respected chefs and their fine restaurants. Here at NEOZ Lighting, we understand the lifelong work and passion that goes into creating the perfect fine-dining experience.

From household names to legends in the industry such as Jason Atherton, Alain Ducasse and Thomas Keller, our table lamps are relied upon to provide visually pleasing, simple cord-free solutions for optimal light levels to showcase their culinary creations.

Set the mood right with our collections. Designed with functionality, longevity, and purpose in mind, NEOZ Cordless Lamps reflect the same best-in-class quality that our clients provide in service.

"The battery powered lights gave us the solution for bringing light to the table tops as lighting from above was not an option. I chose the Cooee 2c because it was compact and suited the design but importantly reflected all light down to the table top hence avoiding any glare."

Grant Cheyne - Architect for Rockpool Dining Group

METAL
BODY

TALLER, BRIGHTER, TOUGHER

The award winning 'Tall Poppy' has been designed to provide twice the brightness, a wider glare-free light coverage in a beautiful ribbed zinc alloy diecast body.

The 'Tall Poppy' is fitted with a 2600k warm white LED that produces 100+ lumens of downlight for over 10 hours on one charge, enough to light up a table for up to six diners.

A diecast construction has been selected for improved durability, the lamp is nicely weighted top and bottom for greater stability on the table.

In order to achieve a superior level of fit and finish, each lamp is individually hand polished before one of five electroplating, paint or PVD finishes is applied.

TALL POPPY

The Tall Poppy provides a glare-free direct down-light in a slender ribbed form. Its robust solid metal diecast construction ensures durability and is available in a range of electroplated, painted and PVD finishes.

Available in the following colours
in a Zinc Alloy diecast body

● Satin Silver
● Satin Brass

● Satin Bronze
● Satin Black

AWARD WINNING DESIGN

As a design-based manufacturer, we have a long tradition of being pioneers in the lighting field. Starting from 1983, NEOZ has designed custom floor, wall, table and task lights and in the 1990s revolutionised the industry with our award-winning Lightrail and Lightwire track systems.

The NEOZ Cordless Lamp range was first developed in 1995 and awarded the Australian Design Award in 2001, 2004, and 2006. The prestigious international 'Red Dot' Design Award followed for our V4 Cordless Table Lamp System in 2008.

In 2013, our Cooee Lamp range was awarded Gold for the International Design Award under the 'Outdoor Lighting' category and Silver for 'Urban Sustainable Design'. More recently, 'Tall Poppy' was awarded the GOOD DESIGN Award 2017, and 'Apex' was awarded Gold in A' Design Award 2021.

*"Fabulous attention to detail, great feature set,
beautifully implemented development.
This is terrific product design !"*

“PUTTIN ON THE RITZ”

Originally made for The Ritz London, the classical style of the Ritz Cordless Lamp embraces the period's ambience and understated elegance.

Hot forged from a single ingot of raw brass, the Ritz and the more compact Victoria and Albert are CNC machined and then polished to a deep lustre. The solid brass base is then paired with a handmade lampshade, providing direct downlight and soft diffused sidelight.

RITZ

Handmade parchment shade on a solid forged and polished brass base, this classic cordless lamp provides direct downlight and soft diffused sidelight. The Ritz is available in either 1W LED or 5W Halogen light source.

Customised shade available for commercial quantity.

VICTORIA

Handmade Cotton or pleated silk shade on a solid forged and polished brass base, this slim refined cordless lamp provides direct downlight and soft diffused sidelight.

Customised shade available for commercial quantity.

ALBERT

Handmade Cotton or pleated silk shade on a solid forged and polished brass base, this slim refined cordless lamp provides direct downlight and soft diffused sidelight.

Customised shade available for commercial quantity.

Available in the following material and finishes

- Solid Polished Brass
- Solid Aged Brass (New for 2020)

BELLINGEN - SUSTAINABLE LUXURY

Our new Bellingen lamp celebrates the beauty of sustainable timber in an organic form. Using Camphor Laurel sourced locally from the Bellingin Shire, this beautiful hardwood has delicate layers of rich rich multi coloured woodgrain, which is fragranced with and reminiscent of the crisp and clean camphor smell of its leaves when crushed. Its timber is naturally anti-bacterial because of the natural oils embedded within the timber, hence reducing microbial growth.

We worked with the local community to identify trees of this invasive evergreen species to harvest. The timber is then crafted into the lamp body using sustainable processes by local craftsman Jack Buchanan, a second generation wood worker. The Bellingin is finished with a natural satin oil, resulting in a water-repellent and dirt-resistant lamp body.

Every piece is unique and celebrates how imperfectly perfect timber is, just as nature intended. Choose between a hand-made cotton lampshade or a hand-blown glass lampshade.

20 YEARS AND COUNTING!

Overlooking the breathtaking views of Sydney harbour, Café Sydney is a regular favourite for locals and visiting tourists alike.

The first NEOZ Cordless Lamp was put into use in their elegant dining space back in 2001. With over 60 lamps, they upgraded to the V4 System in 2008 to take advantage of the improved conductive charging & docking system.

As with all NEOZ Cordless Lamps they're built to last and all parts are serviceable. To this day Café Sydney's 'Gem 2' lamps are still lighting up their tables against one of the most iconic backdrops in the world!

With sustainable and timeless design, a NEOZ cordless lamp is sure to be the best investment for any establishment.

"They are the most stunning rechargeable orange lamps and whilst the simplicity of operation and reliability remains, the technology continues to evolve. We could not imagine Cafe Sydney without them - they are as much a part of Cafe Sydney as the view! Thank you for a wonderful design.."

Jan McKenzie – Director of Operations, Cafe Sydney

GEM 1 RESIN

WHY LIGHT QUALITY IS IMPORTANT

Lighting design impacts how people experience a space more than any other single design element.

Lighting is one of the most critical elements in how people experience a designed environment. Poor lighting choices can negatively impact an otherwise creatively designed space. The lighting solution needs to be aesthetically authentic to the overall design and importantly create a comfortable, pleasing ambience.

Over 25 years Neoz continues to perfect the Cordless table lamp through a range of diffuser forms offering a choice of light direction and diffusion and developing LED light sources in beautiful warm white with a colour rendering index (CRI) of up to 95+, producing very natural light that presents accurate colours, complementary to skin tones and food colours.

"The FF&E is a critical part of the lighting chemistry; the tone and brightness must play with space as part of the overall scene. An important part of the brief was that each of the tables should have its own glow to light guests' face, so our solution was to equip each table with a cordless, rechargeable LED lamp by NEOZ, which has three brightness settings."

Rob Honeywill - MD, Maurice Brill Lighting Design

ILLUMINATED FURNITURE

NEOZ Cordless Lighting technology is incorporated into special illuminated furniture designed by Henrietta Gothe-Ellis for commercial and home use.

Manufactured from durable linear low-density polyethylene (LLDPE) these illuminated furniture are IP51 rated, suitable for both indoor and outdoor use. We offer three type of light source, the standard 80 lumens 1.2W LED, optional high brightness 300 Lumens 5W LED or remote controlled colour changing 3W RGB LED.

CORDLESS FLEXIBILITY

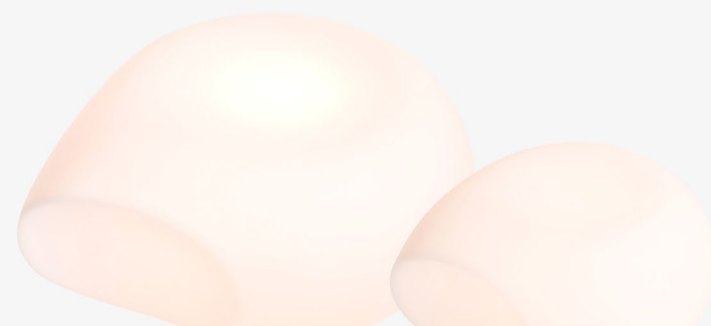

Powered by the award winning NEOZ Cordless Lighting System, use the illuminated furniture wirelessly for up to 56 hours* or operate from the mains power while simultaneously charging the battery.

A 5 unit charging solutions can also be provided upon request.

COMMERCIAL DURABILITY

Fabricated in rotational moulded UV Stabilised Polyethylene, a durable, weather resistant and easily recycled plastic. These illuminated furniture are light weight & portable (6kg) with a maximum loading of up to 300kg**. Like every NEOZ products, the illuminated furniture are covered by our 36 months warranty.

* Operating on high light output settings (97+ lumens) with 1.2W LED & PRO battery pack.

** * Max load for the standard Aura, 200kg for the Aura Mini

AURA

In collaboration with designer Henrietta Gothe-Ellis of 2DESIGN, the award winning Aura illuminated modular seat utilizes NEOZ PRO Cordless technology to provide a soft ambient glow.
